EDUCATION OUTREACH PROGRAMMES

1. **Community Lectures: Bài giảng đại chúng SỰ GẮN BÓ GIỮA HÓA HỌC – THIÊN NHIÊN VÀ ĐỜI SỐNG - YouTube**

This series of community lectures were conducted monthly via Facebook and YouTube livestreams open to the public about the applications of Science and Technology in daily life, manufacturing and other economic activities. A number of lecturers were on smart materials and biodiversity. However, at one point the University YouTube account was hacked, and some videos have been deleted.

2. **HUST MOOC platforms: DaoTao.AI: Đại học số Việt Nam**

The MOOC platform has been developed for the last 2 years. It has served not only the students of HUST but also the various training demands of the Ministry of Public Security (Driving licenses courses) and of Provincial authorities.

3. **Workshops on innovation & entrepreneurship: https://www.facebook.com/hust.bkholdings**

BK-Holdings is a company belonging to HUST that supports incubation and innovation activities. The company organizes workshops at least monthly to share expertise both in entrepreneurship and start-up ideas in a variety of industries.

4. **Schools of HUST have provided digital learning data for everyone to access online as follows:**

a) School of Applied mathematics and informatics
   http://sami.hust.edu.vn/tai-lieu/
